

**Jan M.C. GEUNS**

**Proceedings of the 10th Stevia Symposium  
organised by EUSTAS 2017**

# **Stevia, more than Sweet Science!**

Polo Didattico Piagge  
The University of Pisa  
Via Giacomo Matteotti 11  
Pisa

**Pisa, Italy**

**13 – 15 September 2017**

## **Acknowledgements**

EUSTAS acknowledges Prof. Luciana Angelini and her team for the organization of this symposium. The editor acknowledges Dr. David Cooke for the corrections of the English version and Christine Vergauwen for the lay-out of the booklet of the proceedings.

The 10<sup>th</sup> EUSTAS Symposium was jointly organized under the patronage of the University of Pisa and the Department of Agriculture, Food and Environment of the University of Pisa.

UNIVERSITÀ DI PISA

### **Scientific Committee**

Prof. Jan Geuns, President EUSTAS, University of Leuven  
Dr. Ursula Wölwer-Rieck, University of Bonn  
Prof. Luciana G. Angelini, University of Pisa  
Peter Grosser, Medherbs, Vice-president EUSTAS  
Dr. Joël Perret, Stevia Natura

### **Organizing Committee**

Prof. Luciana G. Angelini, University of Pisa  
Dr. Silvia Tavarini, University of Pisa  
Dr. Lara Foschi, University of Pisa  
Dr. Lucia Ceccarini, University of Pisa

Prof. Jan Geuns, President EUSTAS, University of Leuven  
Peter Grosser, Medherbs, Vice-president EUSTAS  
Sebastian Winkelhaus, Nature's Ingredients

## List of sponsors

ABOCA S.p.A. Loc. Aboca, 20, 52037 - Sansepolcro (AR) – Italy

NATURALIA INGREDIENTS S.R.L., Maccaferri Industrial Group, Via del  
Triumvirato, 13, 40132- Bologna – Italy

WEBB JAMES S.R.L. Spices and natural flavors import export  
Via delle Cateratte, 84 int.11, 57122 Livorno – Italy

## Contents

1. Study of phenotypic traits usable to describe <i>Stevia rebaudiana</i> varieties. Corentin Clot	7
2. SNP Identification through reduced-representation library (RRL) sequencing for <i>Stevia rebaudiana</i> diversity studies, genotype traceability and future breeding purposes. Valérie Schurdi-Levraud	9
3. Missense mutations of UGT76G1 alter rebaudioside biosynthesis in <i>Stevia rebaudiana</i> . Eva Petit	11
4. <i>Stevia</i> response to salt stress: agronomic and biochemical evaluation. Andrea Martini	13
5. <i>Stevia rebaudiana</i> organic production establishment: taking into account <i>Septoria</i> sp. Cécile Hastoy	25
6. Studies on efficiency of <i>Stevia rebaudiana</i> Bertoni cultivation in the climate conditions of southern Poland. Olga Zastawny	33
7. Potential and constraints for cultivation of stevia in Morocco. Chaouki Alfaiz	39
8. Is Purification Processing Affecting the Natural Pattern of Steviol Glycosides? Anne Oehme	41
9. The effects of steviol glycosides on <i>Listeria monocytogenes</i> and <i>Salmonella typhimurium</i> growth dynamics. Etienne Jooken	49
10. Oral aspects of steviol glycosides: Effects on microbial acid production - methods and preliminary results. Maria Meder	65
11. Can <i>Stevia</i> leaf extracts protect beta cells against gluco- or lipotoxicity? Marco Bugliani	77
12. Steviol glycosides enhance pancreatic beta-cell function and taste sensation by potentiation of TRPM5 channel activity. Rudi Vennekens	89

## Posters

- P 1: Kenan Turgut: Sustainable high frequency micropropagation of *Stevia rebaudiana*. 99
- P 2: Begum Tutuncu: The Relationship between morphologic and agronomic characters of *Stevia rebaudiana* Bertonii leaves. 100
- P 3: In-Cheol Jang: Biosynthesis of terpenoids in *Stevia*. 102
- P 4: Mojtaba Karimi: New insights on the steviol glycoside biosynthesis in *Stevia* by using some specific plant growth regulators (PGRs) 104
- P 5: Mustafa Karhan: Evaluation of the efficiency of PVPP dosage on clarification of stevia extract. 105
- P 6: Mustafa Karhan: Optimization of extraction parameters for steviol glycosides by response surface methodology 107
